ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand or gravel, with less loss of strength, than any other brand; it is therefore the most economical. ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall around Governor's Island, New York Harbor, has never been equalled by other cement. It is as follows: Tensile strength per square inch-One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds. For sidewalks it gives the best color and the most endurable wearing sur-

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. Bridges, 20,000 barrels.
